25X1

THIS INFORMATION IS FROM THE [] IMAGERY ANALYSIS SERVICE:
ANALYSIS OF THE SEVEN OBJECTS LOCATED AT THE CHIN CHIANG
BARRACKS WEST, CHINA (24-48-30N 118-32-40E) REVEALS THAT THE
CONFIGURATION OF THE OBJECTS MORE CLOSELY RESEMBLED TRUCKS
RATHER THAN STYX MISSILE CRATES. THESE OBJECTS ARE SLIGHTLY
TAPERED, APPEAR TO HAVE A ROUNDED FRONT AND A FLAT TOP,
WHEREAS A STYX MISSILE CRATE HAS A PEAKED ROOF, SLANTED SIDED,
UNIFORM LENGTH, AND A NOSE-SHAPED APPENDAGE AT ONE END.

25X1

BASED ON THE CONFIGURATION, AND DIMENSIONS OF []
FEET, WHICH IS CONSISTENT WITH A NUMBER OF BOTH MILITARY AND
CIVILIAN TRUCKS, WE FEEL THESE OBJECTS ARE TRUCKS RATHER THAN
STYX MISSILE CRATES. THE OBJECTS WERE FIRST OBSERVED ON PHOTO-
GRAPHY OF [] AND HAVE BEEN COVERED
BY LARGE-SCALE COVERAGE SEVERAL TIMES SINCE.
